

TIME LINE FOR COLLABORATIVE PROCESS

The "other" (relationship and emotions) agenda: All sorts of options that might be adopted as orchestrated (probably by the Family Consultant)

- The other agenda eg
- 1) the family consultant provides one on one individual support
 - 2) the FC provides gateway to mediated discussion re parenting issues
 - 3) possibly 4-way (clients and their respective FCs) meeting.

The family consultant process is likely to end with the end of the lawyer process even if there is then a referral to continuing therapy for example
